The map illustrates an urban planning project in Casalgrande. At the top, a row of buildings is shown with two hatched rectangular areas. Below them, a road labeled "VIA TINTORETTO" runs horizontally. To the left of the road, a vertical green line represents a drainage or utility feature, with a blue square containing a white 'd' and the word "esistente" (existing) nearby. Further left, a blue arrow points down with the word "esistente". To the right of the road, a large green rectangular area is shown. Below this, a blue area represents the "RIO CANALAZZO". A red line outlines a specific area of interest. On the right side, a parking area is marked with a blue 'P' and a vertical line of pink rectangles. A label "AREA INTERESSATA DAL TOMBAMENTO DEL RIO CANALAZZO" points to a section of the river. The map includes various urban planning symbols, such as a blue square with a white 'd', a red circle with a white 'e', and a blue square with a white 'P'. Dimensions like "10,00" and "2,00" are indicated near the parking area.
